

Kluger

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Move in comfort and style

When it's time to travel with the family, you'll arrive with unmistakable style in Kluger. The deeply sculptured design features expanded front flares, a powerful on-road stance and modern flowing lines to turn heads wherever you go.

You'll find Kluger is equally at home on everyday school, work or social runs as it is on the open road when making the great family escape. With all of today's essential connectivity and

convenience to keep the crew happily entertained, you'll discover how sophisticated elegance and intuitive technology help make every journey a joy.

Kluger is also available with the latest generation Toyota Hybrid Technology. This delivers highly responsive power with reduced emissions to help make the future of family mobility even more environmentally conscious.

Plus, you'll have peace of mind with Toyota's latest technology including the Panoramic View Monitor on Grande and Toyota Safety Sense as standard to help keep you and your family safe, whatever the occasion.

Kluger. Where you and your family come first.

Grande Hybrid AWD shown.

Everyday luxury

With Kluger, there's no need to compromise on luxury when it's time to take the family on the road.

Inside is where everyone will appreciate the sumptuous comforts and extra space of a genuine 7-seat family vehicle. The contrasting metallic ornamentation and luxurious finishes are matched by practical storage spaces, as well as 241L of flexible rear cargo space to carry your luggage and gear.

The welcoming atmosphere is accentuated by natural light coming through the panoramic glass moonroof available

on Grande. In GXL and Grande, the front seats are power adjustable and heated. Grande also features Driver's Seat Memory and ventilated front seats. The second row of seats can slide and fold and the rear seats fold to provide even more flexible luggage space and leg room.

Every detail in the Kluger has been thoughtfully designed to present a confident and refined presence on the road.

Switched-on living

The advanced technology and digital capability in every Kluger help maintain a seamless connection to what matters in your world. These intelligent features are designed to make life easier for the driver and ultimately enhance the travel experience for everyone on board.

You can approach Kluger, then hop in and start driving using the hands-free convenience of the smart entry and start system.

Once on the move, you'll find important vehicle data and travel information where you need to see it within the 4.2" Multi Information Display (MID) that rises to a 7" MID on GXL and Grande. You'll also see driving data and detail right before your eyes on the Head-Up Display in Grande.

The 8" colour touchscreen display features a 6-speaker audio system that upgrades to a premium 11-speaker JBL®⁴ audio system on Grande, with both including Apple CarPlay®^{1,3} and Android Auto™^{2,3} connectivity (speak to your Dealer about device compatibility). This allows voice recognition commands, hands-free calls and for you to listen to your favourite tunes when connected to your compatible smartphone. The satellite navigation⁵ with touchscreen control on GXL and Grande will also have you heading to your next destination with ease.

Relax, you'll be making all the right connections in Kluger.

Power and confidence on the road

The ultimate family vehicle needs to be prepared for anything. Short trips, long drives, big groups or even a peaceful journey on your own. With a choice of either a traditional petrol engine or Toyota's latest generation hybrid technology, Kluger delivers the power and capability to handle virtually anything your family could demand.

The 3.5L V6 VVT-i petrol engine delivers 218kW of power and 350Nm of torque through a silky smooth 8-speed automatic transmission and offering 8.7L/100km⁶ fuel consumption for Petrol 2WD variants. You can choose from 2WD

or the extra traction of AWD. On both GX and GXL AWD, Dynamic Torque Control balances the torque between the front and rear wheels for added traction and control.

The Dynamic Torque Vectoring on Grande AWD petrol also balances the drive between the left and right wheels to achieve optimal drive through corners and on a range of different surfaces.

The 2.5L Toyota Hybrid System with a combined system output of 184kW provides effortless power through a Continuously Variable Transmission (CVT)

with the surefooted control of Hybrid AWD that's been optimised for hybrid and electric power. Plus, it delivers the outstanding fuel efficiency of 5.6L/100km.⁶ You can also choose from Normal, Eco or Sport drive modes to match the driving conditions.

Petrol 2WD, Petrol AWD and Hybrid AWD options boast a braked towing capacity of 2000kg,⁷ so the boat or camper trailer is welcome to come too.

An aerial photograph of a winding asphalt road that curves through a dense forest of green trees. The road is bordered by a white line and a dark shoulder. To the left of the road, a steep, rocky mountain slope descends towards a calm, dark blue lake. The rocks on the mountain are light brown and have a textured, layered appearance. The overall scene is serene and scenic, suggesting a remote or natural environment.

Hybrid performance and efficiency

Toyota has led the way in Hybrid technology for over 20 years. And as we continue to drive the future of mobility, it's easy to see why millions of drivers worldwide have made the switch.

The 2.5L hybrid system can allow you to travel up to 1160km⁶ without the need to stop and without ever needing to be plugged in to charge the battery. The Ni-MH battery size and weight have also been optimised to further assist fuel efficiency.

When linked to the surefooted AWD E-four system, with deceleration assist control to help when driving downhill, Kluger Hybrid is ready to help you make a cleaner getaway on your next family adventure.

The Hybrid System

Four Key Benefits

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy a spirited drive with responsive, dynamic performance.

Further

You don't have to plug in a Toyota Hybrid – the battery charges as you drive, using the engine or energy captured when decelerating or braking. So you can be confident a Toyota Hybrid will take you further for less.

Quiet

The quieter and calmer experience in a Toyota Hybrid is proven to deliver one of the most satisfying and enjoyable drives on the road, with no compromise on vehicle responsiveness. It's why millions of hybrid drivers choose never to go back to petrol-only engines once they've made the switch.

Reliable

Toyota's Hybrid System offers the reliability and quality you can always expect from Toyota. Tested and trusted for over 20 years – so no matter where you go, you'll have peace of mind in every drive.

Powerful

Experience a rewarding drive in a Toyota Hybrid with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

Starting off

The electric motor is used primarily. Power stored in the battery is used to turn the motor.

Full acceleration

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

Braking and deceleration

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are minimal CO₂ emissions.

Normal driving

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

At rest

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO₂ emissions.

Where safety comes first

When travelling with something as precious as your family and friends, it's comforting to know you're surrounded by advanced technology to help ensure everyone arrives safely at their destination.

Every Kluger comes equipped with SRS Airbags and Toyota's latest safety driver assist technology as standard, along with Toyota Safety Sense features.

The reversing camera helps provide a clear view of what's behind and the guidelines assist you when backing into tight spaces. The rear view is further enhanced on GXL and Grande with the Back Guide Monitor that provides wide angle vision and moving guidelines. GX has fixed guidelines and no wide angle vision.⁸

Front and Rear Parking Sensors are fitted as standard and combine with the rear Parking

Support Brake to help make parking easier.⁸ Intersection Turn Assistance and Emergency Steer Assist (ESA) are newly added features to the Pre-Collision Safety system (PCS) that provide additional support and safety on everyday journeys. Emergency Steer Assist helps recognise potential danger such as other vehicles, bikes and pedestrians when driving, then helps support you taking evasive action.⁸

Toyota Safety Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever-safer cars, now and into the future, we developed Toyota Safety Sense (TSS).⁸ A suite of active safety features designed to help support safe driving and help protect you and your passengers.

Kluger features the latest TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Please visit toyota.com.au for vehicle and specification information.

Lane Trace Assist

When driving on highways and freeways, Lane Trace Assist uses a camera to detect lane markings when cruise control is active. It is designed to alert you and provide steering assistance to help avoid drifting, and keep you centred in your lane.⁸

Pre-Collision Safety (PCS) system with pedestrian and daytime cyclist detection

Pre-Collision Safety system with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with vehicles and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable, automatic braking to help mitigate impact.⁸

Toyota
Safety
Sense

Road Sign Assist (speed signs only)

Road Sign Assist was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.⁸

Intersection Turn Assist

Intersection Turn Assist helps prevent accidents at intersections by detecting oncoming cars and pedestrians crossing the street when the vehicle is turning.⁸

Lane Departure Alert with steering assist

Lane Departure Alert with steering assist is designed to help prevent vehicles drifting from their lane by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed to help you stay in your lane.⁸

Active Cruise Control

Active Cruise Control is designed to help keep a constant distance between vehicles. It uses a millimeter wave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.⁸

Kluger GX

Hybrid model shown

Parabola LED headlamps with DRLs

I Tow bar, tow ball and trailer wiring harness⁷

The Toyota Advantage

Discover the freedom of Toyota Access¹⁴

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.¹⁵ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself visit toyota.com.au/toyota-access

Capped price servicing¹⁶

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 5 years or 75,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit toyota.com.au/advantage

Toyota Warranty Advantage

Every new Toyota is built to exceptional standards. From 1 January 2019, Toyota vehicles are backed by a 5-year/unlimited kilometre warranty.¹⁷ If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years,¹⁸ giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day money back guarantee and 7 years emergency assistance including expenses related to car hire or towing if required. For more information visit toyota.com.au/owners/warranty

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Your battery goes further¹⁹

The hybrid battery used by Toyota, requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. From 1 January 2019, Toyota hybrid batteries are backed by a 5-year/unlimited kilometre warranty. Complete an annual hybrid battery health check according to Toyota specifications during routine maintenance, and we'll extend your hybrid battery warranty to 10 years.

Finance to get you going

If you need a little help, Toyota Finance²⁰ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²¹ For more information visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist²² is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road. For more information visit toyota.com.au/insurance/roadside-assistance
