King off the road

It was way back in 1958 that the original LandCruiser established its legendary reputation for toughness by ferrying workers on the Snowy Mountains Hydro-Electric Scheme to remote sites across untamed, unforgiving and unrelenting terrain. Inspired by this unbreakable spirit, LandCruiser 300 Series brings fresh strength to its role as Australia's tough, uncompromising go anywhere 4WD.

History confirms that unrivalled capability, reliability and durability have always been part of the LandCruiser DNA. These elements are still at the heart of LandCruiser 300 and inspired our efforts to improve on this legendary capability and build the most responsive and advanced LandCruiser ever.

This strength and unparalleled reputation for handling virtually any challenge have now evolved to incorporate greater capability on and off road, as well as the latest cutting-edge technology and refined elements of sophistication, comfort and style.

The LandCruiser 300 has also been extensively tested right here in Australia's own brutal out-back yard. Why? Because this is where you'll find the severe conditions that match the world's harshest environmental challenges. So, if it's built tough enough to handle the worst you can find here, it's tough enough to conquer anywhere.

LandCruiser 300 builds upon a hard-earned reputation for legendary toughness as the 'King off the Road,' to stand head and shoulders above the crowd.

Imposing strength and style

Evoking the spirit of the original, the chiselled exterior lines of LandCruiser 300 effortlessly expresses boldness and strength with an element of refined charm. Its broad, uncompromising stance is built to be noticed and ensure a formidable presence on the road. More than good looking, it also helps you to maintain more surefooted control on all road surfaces.

The body is structured around a lighter, stronger high tensile steel frame that's been redesigned from the ground up and based upon Toyota's New Global Architecture (TNGA-F) platform that incorporates weight-saving aluminium panels.

More than delivering rugged good looks, this optimised exterior and frame not only provide greater rigidity, but also help improve collision safety, deliver more responsive handling with greater stability as well as improve the aerodynamics for enhanced fuel efficiency.

Plus, when it's time for the caravan, boat or horse float to come along too, LandCruiser 300 has a hefty braked towing capacity of 3,500kg.¹ When towing, you'll also have the added reassurance of Trailer Sway Control that uses sensors to detect then help suppress sway caused by elements such as wind, bumpy roads and steering operation.

Wide open interior space

While there's no denying the toughness outside, inside the LandCruiser 300 is where you'll settle back to enjoy expansive comfort and sumptuous style.

Featuring advanced technology and the latest thinking in ergonomic design, this generously appointed interior helps transform each journey into an effortless joy.

Enjoy more seamless connectivity with Apple CarPlay^{®2} and Android Auto^{™.2} and the convenience of smart entry and start system to quickly jump in and get going.

You'll appreciate all the space you could need with seven seats on GXL, VX and Sahara and five seats on GX, Sahara ZX and GR Sport. The leather accented seats, including a 3-position

driver's seat memory plus a heated steering wheel further accentuate the premium touch on Sahara, Sahara ZX and GR Sport.

On VX and above, the large tablet-like 12.3" colour touchscreen display provides fingertip control over audio, navigation, climate control, and many other functions.

Head-Up Display on Sahara, Sahara ZX and GR Sport projects drive support information onto the windshield in the driver's vision allowing you to still focus on the road conditions ahead.

The dual rear seat entertainment system on Sahara and Sahara ZX will help keep the family happy on long trips and the 14-speaker JBL®³

premium audio system on Sahara and above delivers exceptional quality sound.

Front dual zone climate control on GX and GXL models will keep you comfortable inside, rising to 4-zone automatic climate control on VX and above. Plus, the wireless phone charger⁴ on GXL and higher helps keep you connected.

- A 12.3" colour touchscreen display – VX grade and above
- B 4-zone automatic climate control – VX grade and above, Sahara grade shown
- C Power folding third row seats – Sahara grade only
- D Wireless phone charger – GXL grade and above

Head and shoulders above the pack

The LandCruiser 300 Series seamlessly blends off road capability with timeless style. With six grade options to choose from, each one now equally adept at tackling the toughest terrain as it is turning heads around town.

Featuring a range of premium styling enhancements, Sahara ZX is certain to catch the eye in any urban setting. These include 20" alloy wheels, and uniquely styled front and lower rear bumpers as well as boldly styled wheel arch mouldings.

GR Sport sets the pulse racing with bold styling and unique features that include the sharp 18" Black alloy wheels, a purposely edgy Black gloss mesh grille with matte White Toyota lettering plus a GR logo that adorns the grille, front doors, steering wheel and smart start engine button.

The boldly defined GR Sport theme continues within with an advanced carbon-look finish steering wheel, centre console and door trim.

Toyota Connected Services⁵

3 years complimentary access⁵

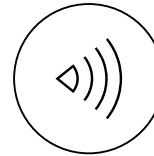

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety, convenience and a better driving experience.

To learn more, please visit toyota.com.au/connected

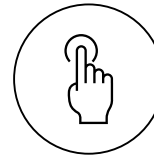

Stolen Vehicle Tracking⁶ (SVT)

Should the unthinkable unfortunately occur, you'll have the peace of mind of knowing Toyota Stolen Vehicle Tracking (SVT) is designed to help find your missing vehicle. After filing a stolen vehicle report to the police, and providing your VIN and police report number to a Toyota Stolen Vehicle Assistance agent, the agent will validate your SVT subscription and initiate tracking. They can then provide updates to the police to assist with the potential recovery of your vehicle.

Automatic Collision Notification⁷ (ACN)

Every second counts when assistance is needed the most. Should an airbag deploy or a severe collision be detected by the impact sensors, Toyota Automatic Collision Notification (ACN) is designed to automatically connect with our 24/7 Toyota Emergency Assistance call centre. If you're unable to communicate or respond, we'll immediately contact emergency services and direct them to your vehicle's location.

SOS Emergency Call⁸

If the situation ever arises where you require urgent assistance, it's comforting to know help can be available at the touch of a button. In the event of a genuine emergency, you can speak directly to a Toyota Emergency Assistance agent, 24/7, simply by pressing the dedicated SOS button in your vehicle. If required, they can direct emergency services to your vehicle's location.

Legendary power

Every LandCruiser 300 Series packs a highly responsive 3.3 litre V6 twin turbo diesel engine that delivers a hefty 227kW of power and 700Nm of torque. This is the most advanced LandCruiser to date, producing the best on and off-road performance in LandCruiser history.

With all this power linked to a smooth 10-speed automatic gearbox, you'll have all the muscle, control and confidence you need to tackle almost any challenge.

Regardless of whether you're driving on rocky roads, sand, mud, snow or dirt, engage the Multi-Terrain Select (MTS) system,⁹ on GXL and above, and it will automatically select the ideal drive mode for the surface to help obtain the best traction.

Drive mode select also allows you to manually choose from three driving modes, or five on Sahara ZX and GR Sport. The AWD Integrated Management (AIM) allows you to experience superior drivability and control off-road and excellent on-road drive.

On steep, rough and uneven surfaces, crawl control helps enhance stability, traction and control. You'll also benefit from Adaptive Variable Suspension (AVS) on Sahara ZX and GR Sport.

The Electronic Kinetic Dynamic Suspension System (E-KDSS) in the GR Sport also automatically adjusts the stabiliser bars to enhance the ground contact performance of the tyres.

Big on safety

With its comprehensive range of advanced safety features and technology designed to help protect you and your passengers, LandCruiser 300 Series is the safest LandCruiser ever produced.

You'll have the reassurance of Toyota Safety Sense⁹ (TSS) technology to help support safe driving and protect everyone travelling with you, while the ten SRS airbags help provide all-round protection in the event of a collision.

Every LandCruiser 300 has a reversing camera,⁹ this includes a Back Guide Monitor⁹ on GXL and above, to help make reversing into tight spaces a breeze, and parking sensors⁹ on GXL and higher help warn the driver of static objects.

Active safety features include Blind Spot Monitor⁹ (BSM) on GXL and higher, that provides a visual alert for the driver when it detects a vehicle driving in or approaching a blind spot.

On VX and above, the Multi-Terrain Monitor⁹ (MTM) with Panoramic View Monitor⁹ (PVM) uses four cameras to help provide a clearer view of what's around your vehicle.

When reversing out into traffic, Rear Cross Traffic Alert⁹ (RCTA) on GXL and upwards helps warn the driver of vehicles approaching from either side.

- A Reversing camera with Back Guide Monitor – GXL grade and higher
- B Rear parking sensors – GXL grade and higher

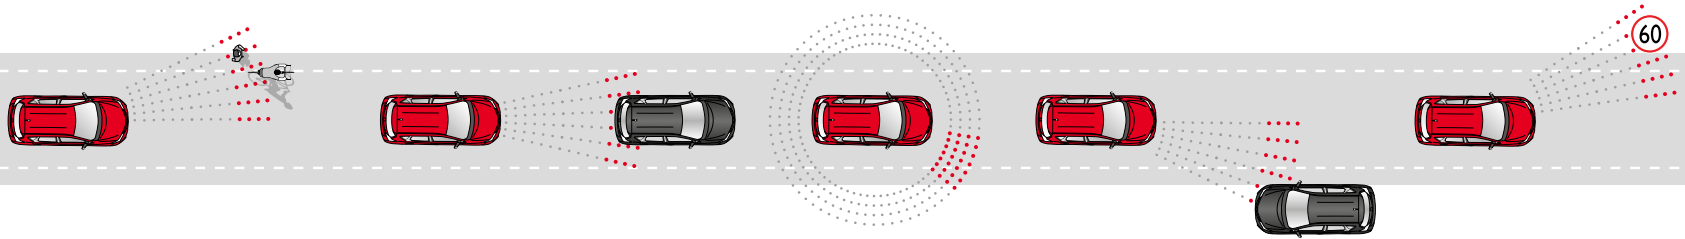

Toyota Safety Sense

Toyota
Safety
Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense⁹ (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

LandCruiser 300 features TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Please visit toyota.com.au for vehicle and specification information.

Pre-Collision Safety system with pedestrian and daytime cyclist detection

Pre-Collision Safety⁹ (PCS) system with with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with vehicles and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable, automatic braking to help mitigate impact.

Active Cruise Control (all speed)

Active Cruise Control⁹ (ACC) is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.

Lane Departure Alert

Lane Departure Alert (LDA) with brake to steer⁹ is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. On VX grades and higher, LDA comes with the addition of Lane Trace Assist (LTA).

Automatic High Beam

Using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam⁹ (AHB) aims to help maintain safe and considerate driving by switching between high and low beam as needed. On Sahara ZX and GR Sport, AHB is replaced with Adaptive High Beam System.⁹

Road Sign Assist (speed signs only)

Road Sign Assist⁹ was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.

GX

- 3.3L V6 twin turbo diesel engine
- 10-speed automatic transmission with manual shift mode
- 5 seats
- 17" steel wheels
- Smart entry and start system
- LED headlamps with manual levelling
- LED Daytime Running Lamps (DRLs)

 P Tow bar, tow ball and trailer wiring harness¹ – on road. Sold separately

The Toyota Advantage

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Discover the freedom of Toyota Access¹⁵

Toyota Access puts you in control when buying a new car, with lower monthly repayments.¹⁶ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself, visit toyota.com.au/toyota-access

Capped price servicing¹⁷

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 5 years or 100,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids). For the full benefits, consult a Toyota Dealer or visit toyota.com.au/advantage

Toyota Warranty Advantage

Every new Toyota is built to exceptional standards. From 1 January 2019, Toyota vehicles are backed by a 5-year/unlimited kilometre warranty.¹⁸ If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years,¹⁹ giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day money back guarantee and 7 years emergency assistance including expenses related to car hire or towing if required. For more information, visit toyota.com.au/owners/warranty

Finance to get you going

If you need a little help, Toyota Finance²⁰ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts on authorised repairs within manufacturer's warranty, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²¹ For more information, visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist²² is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road. For more information, visit toyota.com.au/insurance/roadside-assistance
