ABOUT MG MOTOR AUSTRALIA

MG is one of the fastest growing car brands in Australia, with a market-leading range of vehicles that are encouraging more drivers than ever to switch to low or zero-emission motoring.

In the 100 years of its history, MG has put many models on the road that have gone on to become classics, legends, even icons. At the top of the tremendous sales successes are the range of new models that carry cutting edge petrol, hybrid and electric technology. MG owners are not the only ones who can look forward to this great transformation in automotive engineering. The new MG3, MG4 and Cyberster are living proof of this and they're just the tip of the iceberg.

Designed in Marylebone, London, and manufactured in state-of-the-art factories around the world, today's MGs are practical, spacious and packed with technology. From its innovative new Modular Scalable Platform (MSP) to the intelligent iSmart app, MG continues to demonstrate a forward-thinking and progressive approach to the needs of today's discerning motorists.

With a national network of over 90 dealerships in Australia, MG is accessible to customers everywhere with professional sales and aftersales teams in your local area. All new MGs are built with world class components and are backed by a comprehensive manufacturer's 7-year warranty.

MG LEADERSHIP TEAM

Peter Ciao *CEO MG Motor Australia*

Peter Ciao, the CEO of MG Motor Australia, orchestrated a remarkable success story by immersing himself in Australian culture and understanding the market. Peter has driven MG's popularity, since the brand's relaunch in Australia in 2016 to become the 7th highest-selling manufacturer in Australia in 2022, surpassing established brands. Peter's focus on value and affordable electric vehicles set MG apart, making them the fastest-growing car brand in Australia. He gained the trust of over 100,000 customers, fostered strong partnerships, and expanded MG's range of vehicles. Committed to breaking boundaries and contributing to infrastructure development, Peter's journey as an automotive trailblazer continues with an unwavering passion for MG's growth in Australia and New Zealand.

David Hearty *General Manager: Marketing, PR, Digital*

David Hearty is the General Manager of Marketing, PR, and Digital at MG Motor Australia. With a stellar background in the automotive industry, he has been a crucial force behind MG's success in the Australian market. David's strategic focus on driving a new brand direction and evolving the company strategy with a focus on awareness of hybrid and electric vehicles, community, accessories and the growing dealer network. David's approach thus far has served him well within the business having worked across a range of campaigns including relaunching in the Australian market, launching the MG3, ZS and ZST, events and most recently before this appointment as the National Digital Manager for Australia and New Zealand.

David Giammetta *Communications and PR Manager*

David Giammetta is the Communications and PR Manager at MG Motor Australia and New Zealand. He is adept at shaping the brand's narrative and enhancing its reputation. With a background in strategic communications, he has successfully launched a range of new models including, ZS, MG4, and now MG3. Additionally, he has orchestrated impactful PR brand campaigns, garnering positive media attention and strengthening MG's market presence. David's leadership has reestablished MG as a trusted name in the Australian automotive market. With him at the helm, MG Australia continues to shine as a leader, effectively engaging with customers, partners, and industry enthusiasts alike.

Kim Nguyen *Chief Operating Officer*

Kim Nguyen is the Chief Operating Officer at MG Motor Australia, a dynamic leader known for her holistic approach to resourcing and management. With a proven track record in sales and commercial operations, Kim is driven by a passion for continuous improvement and value creation. She fearlessly embraces change and challenges the status quo to drive growth and uncover opportunities. Throughout her career, Kim has excelled in building and generating new business ventures, leaving a remarkable impact on the automotive industry.

Brad Chruszcz *National Sales Manager*

Brad Chruszcz is the National Sales Manager at MG Motor Australia. He started his automotive journey in 2006 with a strong passion for the industry. He has always been motivated into both growing and maintaining a network of loyal clients. He has been able to positively develop this driven mindset from his transition as Sales Manager through to his latest role. Brad is a prime example to his team on how to interact with customers, dealers and peers in the MG way.

Kenneth Lu *Head of Aftersales*

Kenneth Lu is the Head of Aftersales for MG Motor Australia and NZ and is now in charge of MG's booming Aftersales area catering to MG customers throughout their ownership journey. Kenneth has a focus on implementing operational excellence paired with solutions-focused, customer-centric service. Kenneth brings a wealth of knowledge and experience after heading up several roles in automotive over his 15 years within the industry.

Laura D'Aspromonte *Brand Manager MG3*

Laura D'Aspromonte is the Brand Manager for MG Motor Australia. Laura carries a wealth of experience in product marketing and market analysis, adept at utilising strong communication, leadership, and innovative thinking skills as seen in the most recent launch with ELLE Australia for the new MG3, along with previous successful launches including the MG4.

Jenny Gulliver *Senior Marketing Portfolio Manager*

Jennifer is a seasoned marketing professional with a proven track record in driving results across various sectors. She excels in creating integrated marketing programs, selecting optimal channels, executing creative strategies, and leading sponsorships and brand initiatives to deliver impactful value propositions and engagement tactics. Jennifer's success is built on developing collaborative relationships and working with internal and external stakeholders. Passionate about demonstrating the financial value of marketing efforts, Jennifer is dedicated to excellence, positive leadership, and developing high-performing teams. She has held senior marketing roles at a number of reputable companies in Australia.

Akshat Ahuja *Senior Product & Strategy Manager*

Akshat Ahuja has been recently appointed Senior Product & Strategy Manager at MG Motors Australia with responsibility for overseeing all facets of product in Australia and NZ including planning, testing and feedback. Mr Ahuja has more than 9 years experience in the automotive industry in areas including finance, analysis, product transformation and customer experience. Akshat is dedicated to helping bring products and experiences that can change people's lives for the better. His role is tasked with creating and managing products that can shape the world we live in while focussing on driving business growth, he strives to ensure that the range is safe, and accessible to all.

THE ALL-NEW MG3 HYBRID+ AND MG3 HAS ARRIVED

- **All-new MG3 offers both a petrol and hybrid line-up in entry level Excite and in the top specification Essence trim.**
- **Good things come quickly in the MG3 Hybrid+. The responsive engine paired to a high-capacity battery make this one of the fastest accelerating hybrid model in its class. Taking you from zero to 100km/h in just eight seconds.**
- **MG Pilot provides a unique and extensive range of safety and technology aids.**
- **Entire range benefits from 7-year unlimited kilometre warranty and MG Precise Price Servicing (fixed price) servicing.**

MG Motor has officially launched the all-new MG3 and MG3 Hybrid+ in Australia and New Zealand, marking the debut of its third-generation best selling hatch.

MG offers the all-new MG3 in two variants, Hybrid+ and MG3 (petrol) with two distinct grade options: Excite and Essence, each equipped with a range of high-specification features.

Since its inception, the MG3 has grown in popularity and held a whopping 43.3 per cent share of its segment in 2023. MG Motor Australia sold 15,430 of the previous generation compact hatchback in 2023.

This latest iteration boasts a slew of enhancements given it has been redesigned from the ground up including a new platform, new exterior and interior design as well as superior performance, reduced CO2 emissions, and improved fuel economy. At the heart of these advancements is the introduction of a new 1.5 litre Hybrid+ four-cylinder engine that charges while you drive.

Both the Excite and Essence variants are available on the MG3 Hybrid+ and MG3 petrol models which underline MG's clear commitment to offering drivers the ultimate choice, with state of the art technology and performance available at an attractive price point.

“The MG3 has been redesigned from the ground up and sets a new standard for hybrid and small petrol vehicles in Australia. MG has brought together a brilliant mix of affordability, range and quality for Australian drivers in the all-new MG3 range.” – PETER CIAO, MG MOTOR AUS CEO

MG Motor Australia and New Zealand CEO Peter Ciao said: “The MG3 has been redesigned from the ground up and sets a new standard for hybrid and small petrol vehicles in Australia. MG has brought together a brilliant mix of affordability, range and quality for Australian drivers in the all-new MG3 range.”

“If you don't have a driveway or you live in an apartment or if you'd rather not plug in a charging cable at the end of each journey, our all-new MG3 Hybrid+ makes perfect sense for people looking for a stylish and tech savvy yet affordable car.”

“The all-new MG3 Hybrid+ promises impressive fuel economy without the environmental concerns of pure combustion power. And because their batteries are charged by the engine, you never have to plug them in.”

“Our MG3 Hybrid+ can take you from 0-100km/h in just 8 seconds and is backed with a 7-year warranty plus fixed price services.”

“With Australia's New Vehicle Emissions Standards set to kick into effect from next year, the new MG3, currently Australia's best selling hatch just got better with lower emissions driving and uncompromised quality, efficiency, safety and technology at a great price.”

PRESS PACK

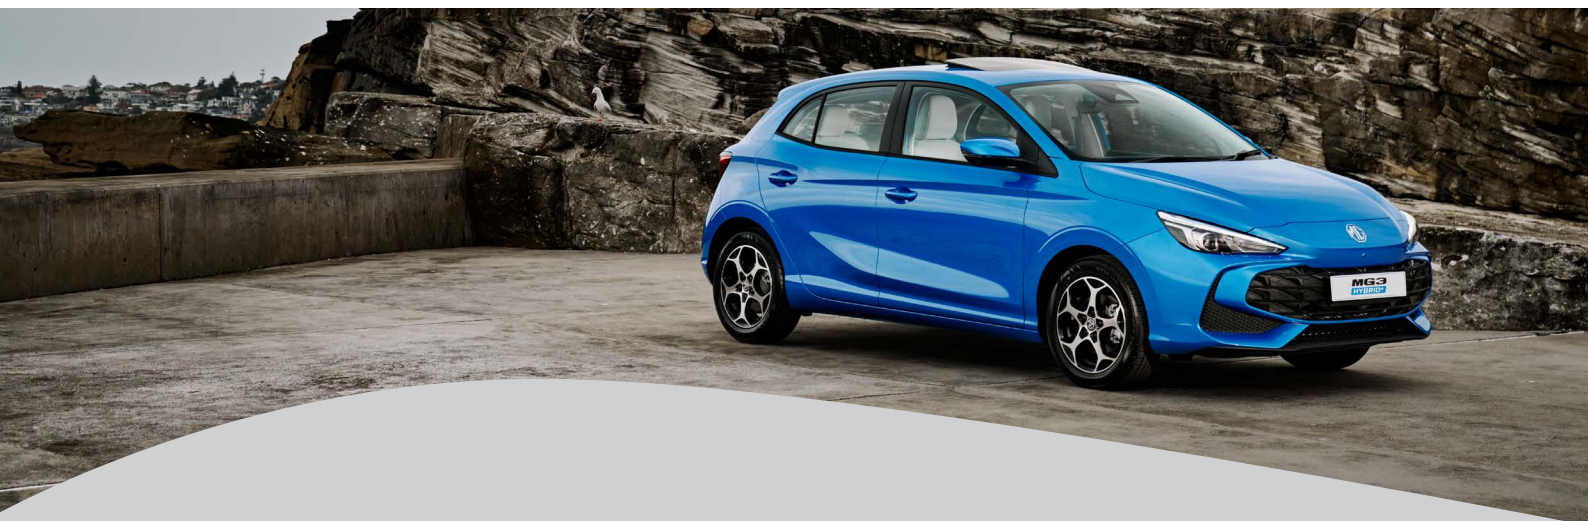

The all-new MG3 Hybrid+ continues to set a new benchmark in its category with CO2 emissions of just 100g/km with a combined fuel consumption of 4.3/100km and a kerb weight of merely 1,298kg (Hybrid+ Excite), 1,308kg (Hybrid+ Essence) and MG3 petrol 1,199kg.

The Excite grade includes halogen headlights, 16-inch alloy wheels, and connectivity options such as Apple CarPlay® and Android Auto™, among others. The Essence grade further enhances the offering with additions like a sunroof, LED headlights, 360-degree camera and ability to remotely turn on and off the air conditioner or heater via MG iSmart.

As MG Motor celebrates 100 years of automotive presence in the market, this new model introduces iSmart connected services free of charge for 1 year from the vehicle's registration date.

The MG3's design is both stylish and practical, maintaining compact dimensions without compromising on visibility. Inside, occupants are treated to a spacious interior featuring a high-quality cockpit and a 10.25" infotainment display as standard. Safety has also been a focal point in this new model with enhancements such as adaptive cruise control, lane departure warning, automatic emergency braking, and blind-spot detection are just a few of the features available on the MG Pilot.

This comprehensive suite of features and improvements positions the all-new MG3 as a compelling option for those seeking to down size, switch to new energy or replace their current car with one that does not compromise on performance, safety, or technology.

SERIOUSLY SPEC'D

MG's Hybrid+ powertrain technology makes its debut on the all-new MG3, and is the first conventional, non-plug-in hybrid system fitted to an MG model. Despite focusing on efficiency, the electrified technology naturally delivers excellent performance benefits. Producing a combined 155kW, the MG3 Hybrid+ returns economy figures of (4.3l/100km) and 100g/km CO₂. This is aided by a 1.83kWh battery, allowing for an extensive electric assisted driving range – significantly boosting efficiency.

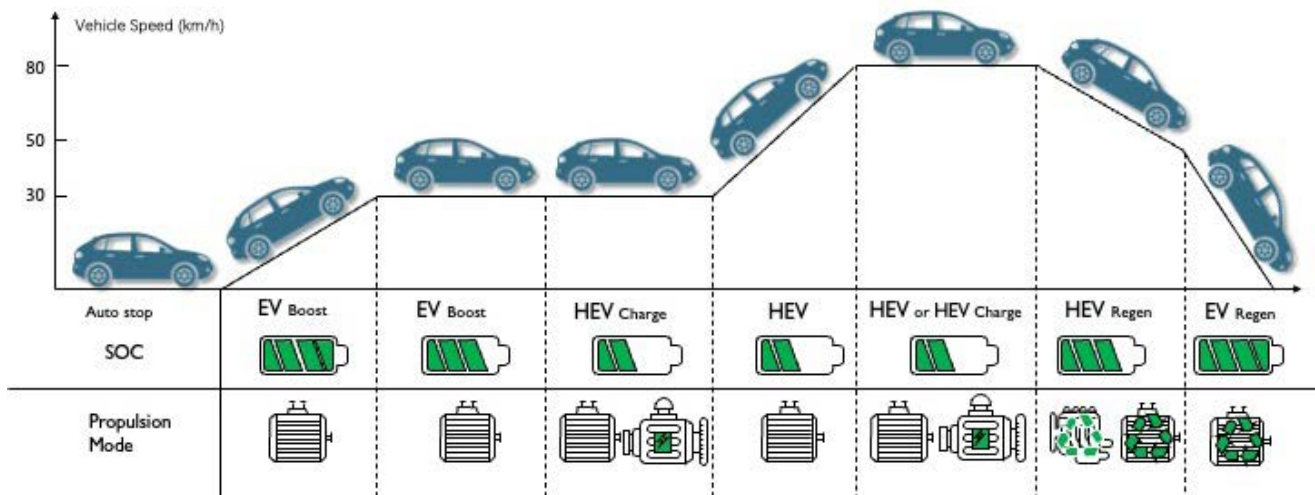

The all-new MG3 Hybrid+ features a 75kW 1.5-litre petrol engine and 100kW electric motor, as well as separate generator motors which enables a wide variety of powertrain operating modes.

The four-cylinder 1.5-litre Atkinson-cycle petrol engine produces 75kW, offering exceptionally high thermal efficiency at 41%. Combined with the 100kW electric motor, the Hybrid+ system provides a broad range of power across the rev range.

With a more powerful motor installed, much of the high-load driving – accelerating for example – can be carried out under electric power, with the petrol engine seamlessly supporting or taking over at higher speeds. Drivers can tailor the MG3's responsiveness with the choice of three driving modes – Eco, Standard, and Sport.

The Hybrid Transmission works in conjunction to the electric traction motor to deliver a fuel efficient and smooth driving experience.

WHY FIT IN WHEN YOU WERE BORN TO STAND OUT?

The all-new MG3 comes with a stylish new look, improved performance and impressive efficiency. It's been redesigned from the ground up for people on the move as life stops for no one.

The compact radically redesigned to make a bold first impression. The all-new MG3 is ready to reflect your style with a range of new colour options and interior hues including white, black, fabric, and PU leather. The distinctive new body lines let you make your MG3 truly your own.

WHY BE A PASSENGER WHEN YOU WERE BORN TO DRIVE?

Responsive handling and ready to journey with you. The all-new MG3 features the evolved 1.5L petrol engine, delivering a new standard of drive for the nameplate with increased torque and faster response. All while bringing you a combined efficiency of 6.0L/100km for petrol and 4.3L/100km for the Hybrid+.

DRIVER-FOCUSED INTERIOR

MG3's interior cabin is orientated around enhancing driver experience, thanks to a premium colour scheme, large 10.25-inch infotainment display, and all controls are within reach of the driver including the push-button engine start. Whether you're looking to make the most of Apple CarPlay® or Android Auto™, or are more interested in the sunroof* and premium polyurethane leather* or 360° parking camera*, we've got you covered.

WE'VE GOT YOUR BACK

We've packed in a whole bunch of safety features as standard so you can enjoy the drive. Now that's what we call peace of mind with MG Pilot Safety which includes Autonomous Emergency Braking (AEB), Front Collision Warning (FCW), Lane Departure Warning (LDW), Emergency Lane Keep Assist (LKAS) and Adaptive Cruise Control.

*These features are only available on Essence models.

SHOW YOUR COLOUR

**Metallic attracts a surcharge.

WHY CHOOSE MG3?

Our MG3 Essence in both petrol and Hybrid+ sets a new standard for tech and safety features, going the extra distance to give you everything you need, without the added cost. From 360° Camera and MG iSMART app that with a simple action, enables you to lock or unlock the doors with your smartphone. Other iSMART features on the MG3 enable you to switch on the air conditioning or heater in the car with the app. Then the car can already be warmed up on an icy morning, or you can cool the interior if the car has been in the blazing sun all day. Anywhere, at any time plus more. Whether it is comfort or confidence you're looking for, the all-new MG3 has got you covered.
