

A close-up, low-angle shot of a dark grey or black car door panel. The word 'smart' is embossed in a dark, textured font that appears to be covered in numerous small water droplets, giving it a shiny, reflective quality. The door panel has a fine, pebbled-grain texture. A thin, light-colored horizontal strip runs along the edge of the panel.

**#1 BRABUS**

3.9 s

0-100 km/h

Fast, but not noisy

**BRABUS Mode**

## Desirability defined

Available roof and body colours\*

\*The roof colour and the body colour are fixed combinations.  
In case of any discrepancy please refer to manufacturer's original specifications.

BRABUS Package

19" Dynamo  
235/45 R19

Sporty Spoiler

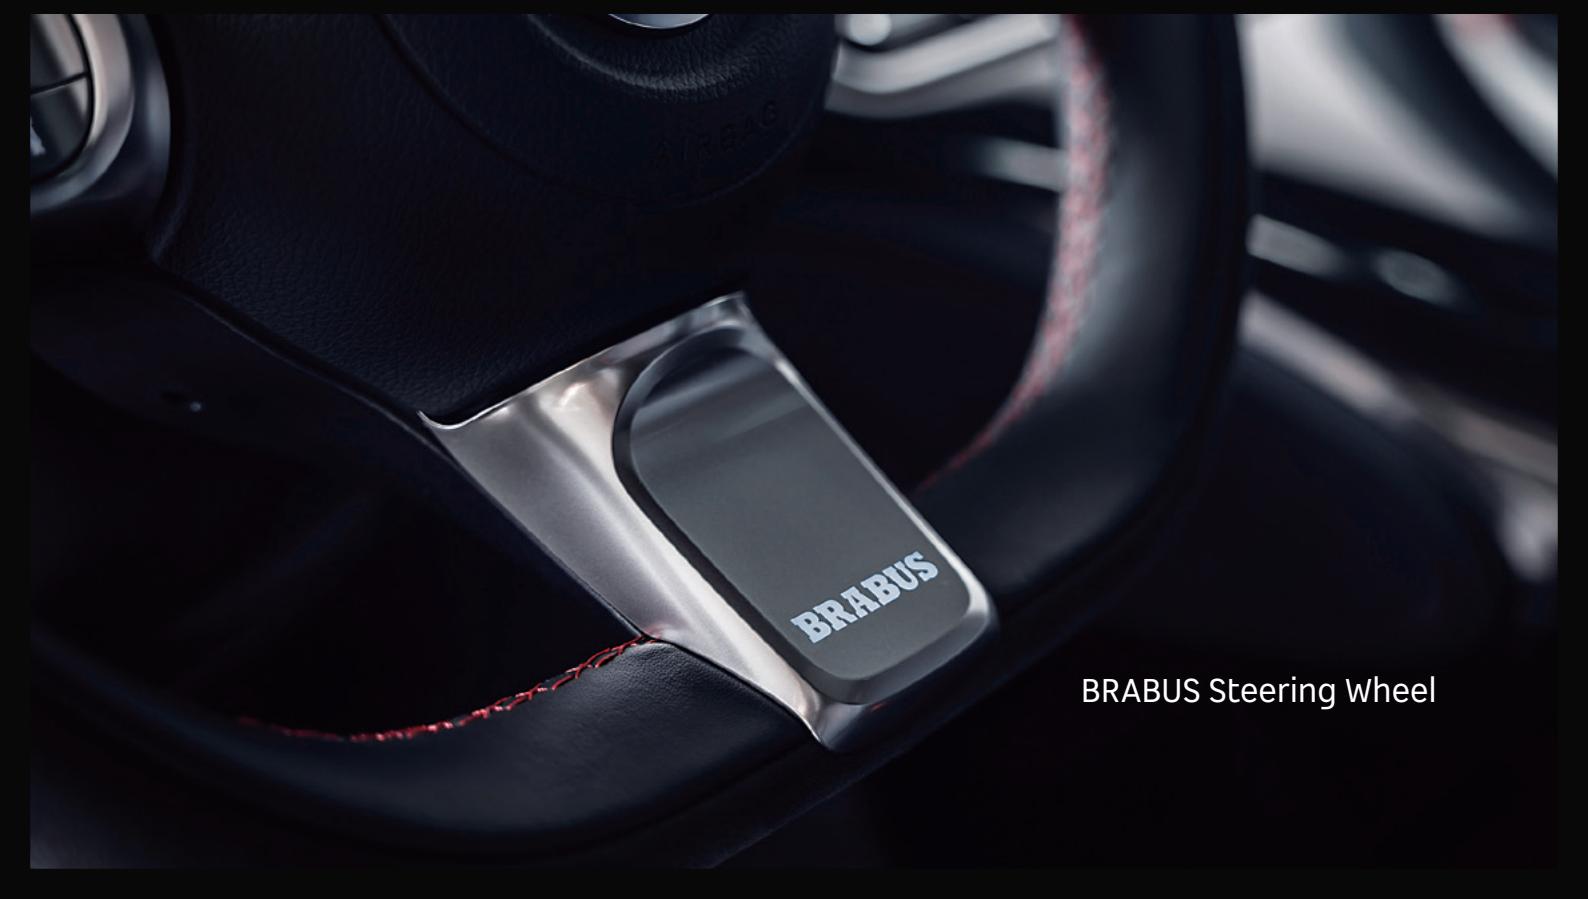

Dazzling,  
but not blinding

BRABUS Headrest

Sporty Style Pedals

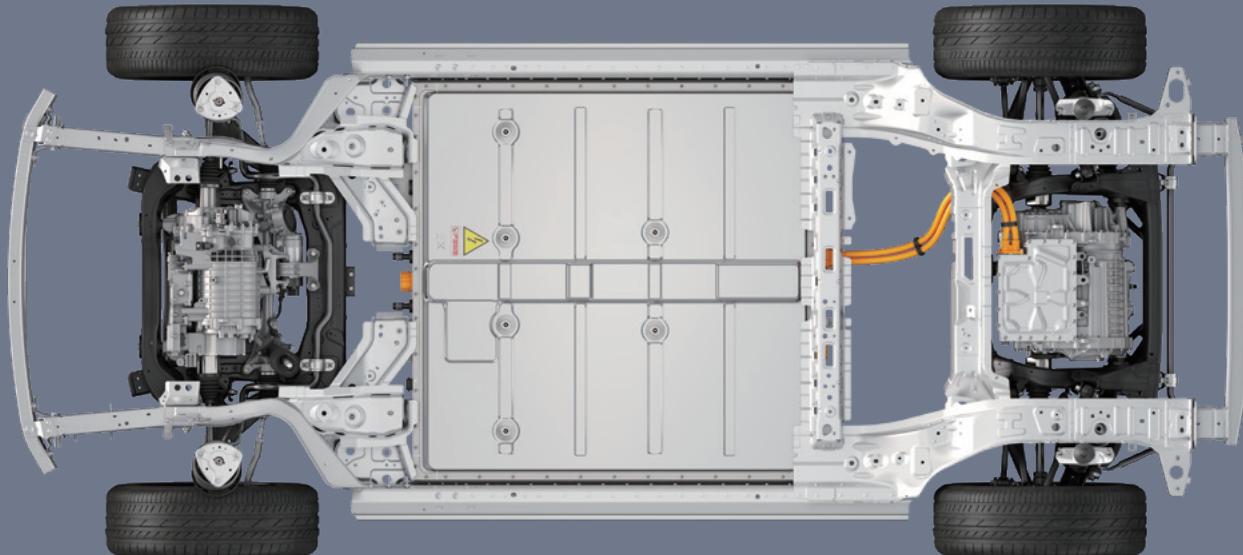

BRABUS Steering Wheel

# smart 4-drive system

In combination with different road conditions, the new smart #1 can realize free switching between 3 drive modes: rear-wheel drive, timely 4-wheel drive and full-time 4-wheel drive.

The 6 ECUs are linked at a blink of 0.4 seconds, coordinating with the front and rear motors to realize the quick switch between 2WD and 4WD.

**Urban mobility**  
ECO mode, energy-saving

Experience the joy in rear-wheel control when driving torque is disengaged from the front drive-wheels.

**Holiday getaway**  
Challenge the road with Sport Mode.  
Embrace the road with Comfort Mode.

When accelerating hard or driving on dirt roads, gravel roads, etc., Comfort Mode (timely four-wheel drive) can switch from rear-wheel drive to four-wheel drive mode without any feeling, and Sport Mode (full-time four-wheel drive) provides efficient torque output and power on demand.

**Transcendent experience as a supercar**  
BRABUS Mode – silent power

Corresponding to full-time four-wheel drive, if you want to feel the passion of a track in the city, just turn on the BRABUS mode, then you can enjoy the exclusive simulated sound in the car. The front and rear motors generate power at the same time, with a full power output of 315kw, breaking 100km/h in 3.9s, 1 second WOW!

## BRABUS Design

BRABUS Package	●
Sporty bodystyle	●
Red painted brake calipers	●
19" Dynamo - 235/45 R19	●
Alcantara® sports-style steering wheel	●
Seat material	Microfiber suede
Sport style pedals	●
Interior colours	BRABUS
Roof colours	Radiant Red, Eclipse Black, One Tone

## Basic Information

Length/Width/Height(mm)	4300/1822/1636
Wheelbase (mm)	2750
E-motor peak power (kW)	315
E-motor peak power (PS)	428
E-motor peak torque (Nm)	543
0-100km/h acceleration time (s)	3.9
WLTP range (km)	400
Powertrain	BEV
Drive mode	ECO/Comfort/Sport/BRABUS
Battery type	Lithium nickel manganese cobalt oxides battery (NCM)
Battery capacity (gross/net) (kWh)	66
Driveline	AWD
Front/Rear E-motor	Permanent magnet synchronous motor (PMSP)
Consumption WLTP combined (kWh/100km)	18.2
DC charging time (150kW, 10~80%)	<30mins

- Time for 0-100km/h acceleration differs according to weather and road conditions, vehicle loads, driver ability and other factors.
- Time for charging differs according to charging capacity.
- Smart Pilot assist is only an auxiliary and assistive driving function and cannot take full control of the vehicle. The driver must take responsibility in observing the driving conditions and take over control when necessary. Caution should be observed in complicated traffic conditions, bad weather etc.
- The roof and body colour are a fixed combination, and the styling colour and interior theme are a fixed combination. (please refer to product configuration on the website)
- Entry and High-level configurations differ in the ambient light coverage.
- The high beam, a matrix consisting of 24 LEDs, will automatically turn off while approaching another vehicle, to prevent glare to oncoming traffic. It is designed to respond to 8 vehicles in front and 2 traffic signs at the same time.
- Different versions correspond to different tire brands. Tyre size specification are described in the configuration table.
